Encl: As Above

Malpani Pipes Secures BSNL Certification for PLB Duct Pipes

Ratlam, 6th August 2025: Malpani Pipes and Fittings Limited (BSE-SME: 544351) has successfully received certification from **Bharat Sanchar Nigam Limited (BSNL)** for the manufacturing of **Pre-Lubricated (PLB) Duct Pipes**, a critical component used in the laying of optical fibre cable networks.

The BSNL certification represents a significant validation of our manufacturing capabilities and quality standards, positioning the company as an approved vendor for government-led telecommunications infrastructure projects. The company's PLB Duct Pipes have successfully met BSNL's rigorous technical specifications and quality benchmarks, demonstrating its commitment to engineering excellence and regulatory compliance.

This certification helped us bagged a **prestigious order for the supply of 242 kilometers** of PLB Duct Pipes to be executed over three months. This order marks the company's formal entry into the telecom infrastructure space and adds immediate visibility to its revenues from the new product line.

Mr. Harsh Malpani, Whole Time Director, Malpani Pipes and Fittings Limited, commented: *"The successful BSNL certification and immediate order acquisition demonstrates our strategic vision of expanding into high-growth infrastructure sectors that are fundamental to India's economic development. Our entry into telecommunications infrastructure through PLB Duct Pipes represents more than product diversification – it positions Malpani Pipes as a comprehensive infrastructure solutions provider capable of supporting India's digital transformation journey."*

This achievement reaffirms our focus on advanced manufacturing and quality systems. As we enter the telecom sector, we see strong growth potential driven by government connectivity goals and private infrastructure expansion. It marks a promising new phase in our journey."

Future Outlook:

Securing the BSNL certification is beyond a milestone for our company. It marks the company's formal entry into India's telecom infrastructure ecosystem. With certified product status, we are now positioned to engage directly in BSNL's national fibre rollout programs and allied communication projects. This certification enhances our credibility as a qualified partner in a highly regulated and quality-sensitive domain, while creating a new revenue stream that complements our existing business verticals. As BSNL continues to lead large-scale digital infrastructure initiatives across rural and urban India, Malpani Pipes and Fitting Limited stands ready to scale its telecom-ready offerings with speed, reliability, and long-term execution capability.
